

# TSRB Production Intelligence™ 30-Day Pilot Enrollment Form

---

## 1. Company Information

Company Name:

Primary Contact Name:

Title:

Email Address:

Phone Number:

## 2. Target Machine Information

Machine Name / ID:

Machine Make:

Machine Model:

Control Make:

Control Model:

Connectivity Protocol (Select all that apply):

MTConnect

FOCAS

OPC UA

Protocol Status:

Enabled and accessible

Available but requires configuration

Unsure

## 3. Network & Infrastructure Requirements

Network Acknowledgment:

I confirm that the facility network provides internet connectivity

Virtual Machine (VM) Requirements:

A VM will be provided for the TSRB edge service

- The VM has access to the shop floor network where the target machine resides
- The VM has access to the internet

## 4. Pilot Scope & Capabilities

Default Capabilities:

- Real-time machine utilization status
- Part count tracking
- Access to TSRB Production Intelligence Portal
- User-configurable dashboards

User Access:

Users will access the system via the TSRB Portal, create accounts using their email, and can create unlimited dashboards.

## 5. Optional Enhancements (During Pilot)

Operator Portal:

- Enable operator interaction

Operators can classify uncategorized idle time using a user-defined list.

Job Tracking:

- Provide job routing data

Operators can select active jobs and system will calculate job-level metrics.

Quality Tracking:

- Enable defect classification

System will calculate quality metrics based on user input.

Large Display / Visualization:

- Configure dashboards for Smart TVs or large-format displays (internet required)

## 6. Implementation & Support

TSRB technical resources will assist with setup, validation, and performance measurement. During the pilot, TSRB will work with your team to quantify results.

## 7. Pilot Outcome

At the end of 30 days, users will have validated performance data and insights.

Options:

- Continue subscription
- Expand system
- Conclude pilot

## 8. Agreement & Acknowledgment

The machine must support MTConnect, FOCAS, or OPC UA.

A VM must be provided with internet and shop floor connectivity.

System will be deployed within ~48 hours of payment and access.

## 9. Authorization

Name:

Title:

Signature: \_\_\_\_\_

Date:
